

Admixtures for concrete, mortar and grout —

Part 6: Sampling, conformity control and evaluation of conformity

The European Standard EN 934-6:2001 with the incorporation of amendment A1:2005, has the status of a British Standard

ICS 91.100.99

National foreword

This British Standard is the official English language version of EN 934-6:2001, including amendment A1:2005. It supersedes BS EN 934-6:2000 which is withdrawn. EN 934-6:2001 is a supporting standard for the candidate “harmonized” European Standards EN 934-2:2001 and EN 934-4:2001.

The start and finish of text introduced or altered by CEN amendment is indicated in the text by tags **A1** **A1**. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by **A1** **A1**.

The UK participation in its preparation was entrusted by Technical Committee B/517, Concrete, to Subcommittee B/517/3, Admixtures, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Additional information

Attention is drawn to the fact that EN 934-6:2001 differs from EN 934-6:2000 in that the annex on attestation of conformity has been replaced by an annex on certification of factory production control. Requirements for marking and labelling have been transferred from EN 934-6:2000 to EN 934-2:2001 and EN 934-4:2001. The table for frequency of test for concrete admixtures has been transferred to EN 934-2:2001.
