

Chemical analysis of refractory products —

Part 2: Products containing silica and/or alumina (wet method)

The European Standard EN 955-2:1995 has the status of a
British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee RPI/14, Chemical analysis of refractories and technical ceramics, upon which the following bodies were represented:

- British Ceramic Research Ltd.
- British Gas plc
- British Industrial Ceramic Manufacturers' Association
- British Iron and Steel Producers Association
- Bureau of Analysed Samples Limited
- China Clay Association
- Ministry of Defence
- Refractories Association of Great Britain

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 July 1995
