

BSI Standards Publication

Hybrid insulators for AC and DC for high-voltage applications greater than 1 000 V AC and 1 500 V DC — Definitions, test methods and acceptance criteria

National foreword

This British Standard is the UK implementation of EN IEC 62896:2024. It is identical to IEC 62896:2024. It supersedes PD IEC/TS 62896:2015, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PEL/36, Insulators for power systems.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is, and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.
