Semiconductor devices – Semiconductor interface for automotive vehicles

Part 1: General requirements of power interface for automotive vehicle sensors (IEC 62969-1:2017)

National foreword

This British Standard is the UK implementation of EN IEC 62969-1:2018. It is identical to IEC 62969-1:2017.

The UK participation in its preparation was entrusted to Technical Committee EPL/47, Semiconductors.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
