

BSI Standards Publication

Methods of measurement and declaration of the detection range of detectors — Passive infrared detectors for major and minor motion detection

National foreword

This British Standard is the UK implementation of EN IEC 63180:2020. It is identical to IEC 63180:2020.

The UK participation in its preparation was entrusted to Technical Committee PEL/23, Electrical accessories.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
