

Textiles — Tests for colour fastness —

Part N03: Colour fastness to
bleaching —
Sodium chlorite (mild)

The European Standard EN ISO 105-N03:1995 has the status of a
British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee TCI/25, Chemical properties, upon which the following bodies were represented:

- Association of Consulting Scientists
- Association of Suppliers to the British Clothing Industry
- British Retail Consortium
- British Textile Confederation
- Chemical Industries Association
- Home Laundering Consultative Council
- International Wool Secretariat
- Mail Order Traders' Association
- Ministry of Defence
- National Wool Textile Export Corporation
- SATRA Footwear Technology Centre
- Soap and Detergent Industry Association
- Society of Dyers and Colourists
- Textile Finishers' Association
- Textile Research Council (FCRA)

Participation in the detailed technical work was undertaken by the Society of Dyers and Colourists.

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 June 1995
