Hand-held non-electric power tools — Safety requirements

Part 10: Compression power tools
(ISO 11148-10:2011)

bsi.

...making excellence a habit.™

National foreword

This British Standard is the UK implementation of EN ISO 11148-10:2011. It supersedes BS EN 792-10:2000 + A1:2008, which will be withdrawn 30 June 2012.

The ISO corrected text 15 April 2012 incorporates the following editorial corrections:

- a) the seventh figure, which was a repeat of Figure B.1 (squeeze riveter), was deleted from page 18;
- b) the titles of Figure B.5 (crimping tool) and Figure B.6 (cutter) have been correctly repositioned immediately below their respective figures at the bottom of page 17.

The UK participation in its preparation was entrusted by Technical Committee MCE/8, Compressors, pneumatic tools, pneumatic machines and vacuum technology, to Subcommittee MCE/8/-/2, Hand-held, non-electric power tools - Safety.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
