

Modified starch — Determination of carboxyl group content of oxidized starch

The European Standard EN ISO 11214:1996 has the status of a
British Standard

ICS 67.180.20

National foreword

This British Standard has been prepared under the direction of the BSI Standards Board and is the English language version of EN 11214:1996 *Modified starch — Determination of carboxyl group content of oxidized starch*, published by the European Committee for Standardization (CEN). It is identical with ISO 11214:1996, published by the International Organization for Standardization (ISO).

This British Standard has been produced to fulfil BSI's obligation to publish all approved European Standards but, because of the absence of interest in the UK in the subject concerned, there has been no UK participation in the preparation of EN ISO 11214.

Any queries relating to the EN should be directed to BSI quoting the reference AW/100.
