

Acoustics — Measurements on silencers in situ

The European Standard EN ISO 11820 : 1996 has the status of a British Standard

ICS 17.140.01

National foreword

This British Standard is the English language version of EN ISO 11820 : 1996. It is identical with ISO 11820 : 1996.

The UK participation in its preparation was entrusted by Technical Committee EH/1, Acoustics, to Subcommittee EH/1/4, Machinery noise, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled 'International Standards Correspondence Index', or using the 'Find' facility of the BSI Standards Electronic Catalogue.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN ISO title page, EN ISO foreword page, the ISO title page, pages ii to iv, pages 1 to 18, the annex ZA page, a blank page, an inside back cover and a back cover.

Amendments issued since publication
