Nuclear fuel technology - Guidelines on the measurement of the specific surface area of uranium oxide powders by the BET method

National foreword

This British Standard is the UK implementation of EN ISO 12800:2019. It is identical to ISO 12800:2017. It supersedes BS ISO 12800:2017, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee NCE/9, Nuclear Installations, Processes & Technologies.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
