

BSI Standards Publication

**Stationary source emissions
— Determination of total
volatile organic compounds
(TVOCs) in waste gases from
non-combustion processes
— Non-dispersive infrared
analyser equipped with
catalytic converter**

National foreword

This British Standard is the UK implementation of EN ISO 13199:2012.

The UK participation in its preparation was entrusted to Technical Committee EH/2/1, Stationary source emission.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
