

Rotary positive displacement pumps — Technical requirements

The European Standard EN ISO 14847:1999 has the status of a
British Standard

ICS 23.080

National foreword

This British Standard is the English language version of EN ISO 14847:1999. It is identical with EN ISO 14847:1999.

The UK participation in its preparation was entrusted to Technical Committee MCE/6, Pumps and pump testing, to Subcommittee MCE/6/6, Positive displacement pumps, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 20, an inside back cover and a back cover.

Amendments issued since publication

Amd. No.	Date	Comments
10836 Corrigendum No. 1	February 2000	Duplicate page 12 of EN ISO deleted and page 11 inserted
