This British Standard is the UK implementation of EN ISO 14978:2018. It is identical to ISO 14978:2018. It supersedes BS EN ISO 14978:2006, which is withdrawn.

BS EN ISO 14978:2018 is meant to be read in conjunction with a number of international measurement standards, listed below. Where this standard provides general requirements, the forthcoming revised standards cover the specific requirements for individual measuring instruments.

Each international standard in this suite has a corresponding British National standard giving measurement information in Imperial units.
