

Starch — Determination of moisture content — Oven-drying method

The European Standard EN ISO 1666:1997 has the status of a
British Standard

ICS 67.180.20

National foreword

This British Standard is the English language version of EN ISO 1666:1997. It is identical with ISO 1666:1997. It supersedes BS EN ISO 1666:1994 which is withdrawn.

This British Standard has been produced to fulfil BSI's obligation to publish all approved European Standards but, because of the absence of interest in the UK in the subject concerned, there has been no UK participation in the preparation of EN ISO 1666.

Any queries relating to the EN should be directed to BSI, quoting the reference "AW/100".

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled "International Standards Correspondence Index", or by using the "Find" facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
