

Hot-rolled stainless steel plates — Tolerances on dimensions and shape (ISO 18286:2008)

ICS 77.140.50

National foreword

This British Standard is the UK implementation of EN ISO 18286:2010. It is identical to ISO 18286:2008. It partially supersedes BS EN 10029:1991, which is withdrawn.

The requirements for stainless steel plates in BS EN 10029:1991 are superseded by this standard. The 2010 revision of BS EN 10029 no longer contains these requirements.

The UK participation in its preparation was entrusted to Technical Committee ISE/105, Steels for Heat Treatment, Alloy Steels, Free-Cutting Steels and Stainless Steels.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 July 2010
