

BSI Standards Publication

Water quality — Guidance for rapid radioactivity measurements in nuclear or radiological emergency situation

National foreword

This British Standard is the UK implementation of EN ISO 22017:2020. It is identical to ISO 22017:2020.

The UK participation in its preparation was entrusted to Technical Committee EH/3/8, Radioactivity measurements methods.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
