

BSI Standards Publication

Nuclear fuel technology — Sintered (U,Pu)O₂ pellets — Guidance for ceramographic preparation for microstructure examination (ISO 22765:2025)

National foreword

This British Standard is the UK implementation of EN ISO 22765:2025. It is identical to ISO 22765:2025. It supersedes BS EN ISO 22765:2019, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee NCE/9, Nuclear Installations, Processes & Technologies (for the development of ISO 22765:2025) and Technical Committee NCE/2, Radiation protection and measurement (for the EN ISO 22765:2025 endorsement).

A list of organizations represented on this committee can be obtained on request to their committee managers.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is, and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.
