

Non-destructive testing — Penetrant testing

Part 6: Penetrant testing at temperatures lower than 10 °C

ICS 19.100,

National foreword

This British Standard is the UK implementation of EN ISO 3452-6:2008.

The ISO corrected text 15 March 2009 incorporates the following editorial corrections:

- in the Introduction, reference to EN 571-1 has been replaced with reference to ISO 3452-1;
- the normative reference ISO 3452-1 carries a footnote stating its equivalency to EN 571-1;
- in 3.2, list item d), the phrase “this standard temperature range” has been replaced with “the working temperature range”;
- in 3.4, the second sentence of the first paragraph, the phrase “materials testing” has been replaced with “testing materials”;
- 4.1, list items c) and d), are made requirements, and the last sentence of item d) reworded for greater clarity;
- in 4.2.3, the four occurrences of the word “cloth” have been replaced with “cloths”;
- in the second paragraph of 5.1, the requirement that the degreaser be water soluble has been replaced by the statement “the degreaser has to be soluble in water”;
- minor editorial corrections are made in 4.2.2 and 5.4.2.

The UK participation in its preparation was entrusted to Technical Committee WEE/46, Non-destructive testing.

A list of organizations represented on this committee can be obtained on request to its secretary.
