

Gas analysis — Determination of the water dew point of natural gas — Cooled surface condensation hygrometers (ISO 6327:1981)

ICS 75.060

National Foreword

The British Standard is the UK implementation of EN ISO 6327:2008. It is identical with ISO 6327:1981. It supersedes BS 3156-10.3.1:1987 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PTI/15, Natural gas and gas analysis.

A list of organizations represented on this committee can be obtained on request to its secretary.

Additional information. In paragraph 2 of 3.2 reference is made to the availability of published documents giving the relationship between saturated vapour pressure and temperature. A suitable reference is "Steam Tables" 1964, published by DSIR, National Engineering Laboratory, and obtainable from HMSO,
49 High Holbom,
London, WC1.

In the Table, reference is made to the "British Gas analytical methods" publication 2.5.1, October 1971. This publication is obtainable from British Gas pic,
Hinckley Operational Centre,
Coventry Road,
Hinckley,
Leicestershire, LE10 0NA.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Environment and Pollution Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 July 1987
