Rice – Determination of amylose content

Part 1: Spectrophotometric method with a defatting procedure by methanol and with calibration solutions of potato amylose and waxy rice amylopectin

National foreword

This British Standard is the UK implementation of EN ISO 6647-1:2020. It is identical to ISO 6647-1:2020. It supersedes BS EN ISO 6647-1:2015, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee AW/4, Cereals and pulses.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
