

Hand-held portable power tools — Measurement of vibrations at the handle —

Part 6: Impact drills

The European Standard EN ISO 8662-6:1995 has the status of a British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee GME/21, Mechanical vibration and shock, upon which the following bodies were represented:

- Federation of Civil Engineering Contractors
- Imperial College of Science, Technology and Medicine
- Institute of Sound and Vibration Research
- Institution of Mechanical Engineers
- Lloyd’s Register of Shipping
- Ministry of Defence
- Open University
- Power Generation Contractors’ Association (BEAMA Ltd.)
- Railway Industry Association of Great Britain
- Society of British Aerospace Companies Limited
- Society of Environmental Engineers

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Agricultural Engineers’ Association
- British Aggregate Construction Materials Industries
- British Agricultural and Garden Machinery Association Ltd.
- British Compressed Air Society
- British Gas plc
- British Hydraulic Tool Manufacturers’ Association
- British Occupational Hygiene Society
- British Railways Board
- Department of the Environment (Building Research Establishment)
- Forestry Commission
- Health and Safety Executive
- Institute of Explosives Engineers
- Institute of Naval Medicine
- Institution of Electrical Engineers
- Medical Research Council
- Portable Electric Tool Manufacturers’ Association
- University College of Swansea
- University of Salford

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1995
