

BSI Standards Publication

Gas cylinders — Design, construction and testing of refillable seamless steel gas cylinders and tubes

Part 4: Stainless steel cylinders with an R_m value of less than 1 100 MPa

National foreword

This British Standard is the UK implementation of EN ISO 9809-4:2022. It is identical to ISO 9809-4:2021. It supersedes BS ISO 9809-4:2021, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PVE/3/3, Transportable Gas Containers - Cylinder Design, Construction and Testing at the Time of Manufacture.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.
