Screws with captive washers for aircraft

[UDC 621.882.4:629.13]

Foreword

The screws and washers dealt with in this British Standard are used primarily in electrical connections. Although of slightly different dimensions, they are interchangeable with screws and washers complying with Ministry of Supply drawings A.G.S. 1753 and 1754, which the standard is intended to replace.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i to iv, pages 1 to 4 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Amendments issued since publication

Amd. No.	Date of issue	Comments
346	October 1969	

This British Standard, having been approved by the Aircraft Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, was published under the authority of the General Council of the Institution on 31 December 1958
