Utility connections in port

Part 2: High and low voltage shore connection systems -
Data communication for monitoring and control

National foreword

This British Standard is the UK implementation of IEC/IEEE 80005-2:2016.

The UK participation in its preparation was entrusted to Technical Committee JPEL/18, Electrical installations of ships and of mobile and fixed offshore units.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
