

BSI Standards Publication

Metallic materials — Fatigue testing — Axial force-controlled method

National foreword

This British Standard is the UK implementation of ISO 1099:2017.

The UK participation in its preparation was entrusted to Technical Committee ISE/101/6, Fatigue testing of metals and metal matrix composites.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
