

Measurement of liquid flow in open channels —

Part 2: Determination of the stage-discharge relation

ICS 17.120.20

National foreword

This British Standard is the UK implementation of ISO 1100-2:1998, incorporating corrigendum August 2000. It supersedes BS 3680-3C:1983 which is withdrawn.

The start and finish of text introduced or altered by corrigendum is indicated in the text by tags AC AC. Text altered by ISO corrigendum August 2000 is indicated in the text by AC1 AC1.

The UK participation in its preparation was entrusted by Technical Committee CPI/113, Flow measurement of surface and ground water, to Subcommittee CPI/113/1, Velocity-area methods.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Board and comes into effect on 15 July 1998
