

BSI Standards Publication

**Petroleum and related products — Requirements
and guidance for the maintenance of triaryl
phosphate ester turbine control fluids**

National foreword

This British Standard is the UK implementation of ISO 11365:2017. It supersedes DD ISO/TS 11365:2011, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee MCE/18/-/16, Hydraulic fluids.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
