

Condition monitoring and diagnostics of machines — General guidelines on using performance parameters

ICS 17.160

National foreword

This British Standard was published by BSI. It is the UK implementation of ISO 13380:2002.

The UK participation in its preparation was entrusted by Technical Committee GME/21, Mechanical vibration, shock and condition monitoring, to Subcommittee GME/21/7, Condition monitoring.

A list of organizations represented on GME/21/7 can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 January 2007
