

Refractory mortars —

Part 1: Determination of consistency using the penetrating cone method

ICS 81.080

National foreword

This British Standard reproduces verbatim ISO 13765-1:2004 and implements it as the UK national standard. Together with BS ISO 13765-2, BS ISO 13765-3, BS ISO 13765-4, BS ISO 13765-5 and BS ISO 13765-6, it supersedes BS 1902-11:1991 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/1, Refractories, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
