Gears - Surface temper etch inspection after grinding, chemical method

National foreword

This British Standard is the UK implementation of ISO 14104:2017. It supersedes BS ISO 14104:2014 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee MC/5, Gears, to Subcommittee MCE/5/-/14, Gears-materials.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
