

Thermal turbines for industrial applications (steam turbines, gas expansion turbines) — General requirements

ICS 27.040

National foreword

This British Standard reproduces verbatim ISO 14661:2000, including amendment 1:2002 and implements it as the UK national standard.

The UK participation in its preparation was entrusted by Technical Committee MCE/13, Steam turbines, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

The amendment by which each page of the International Standard was introduced is indicated by an extension to the shoulder heading at the top of the page (e.g, ISO 14661:2000/A1:2002. Where no such extension appears, the page is part of the original European Standard.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
