Soil quality — Dissolution for the determination of total element content

Part 3: Dissolution with hydrofluoric, hydrochloric and nitric acids using pressurised microwave technique

National foreword

This British Standard is the UK implementation of ISO 14869-3:2017.

The UK participation in its preparation was entrusted to Technical Committee EH/4, Soil quality.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
