

BSI Standards Publication

Requirements for seismic assessment and retrofit of concrete structures

National foreword

This British Standard is the UK implementation of [ISO 16711:2021](#).

The UK participation in its preparation was entrusted to Technical Committee B/517/8, Protection and repair of concrete structures.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
