Sustainability in buildings and civil engineering works — Carbon metric of an existing building during use stage

Part 1: Calculation, reporting and communication

National foreword

This British Standard is the UK implementation of ISO 16745-1:2017. Together with BS ISO 16745-2:2017, it supersedes BS ISO 16745:2015, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee B/558, Sustainability of construction works.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
