

Mechanical vibration and shock — Signal processing —

Part 1: General introduction

ICS 17.160

National foreword

This British Standard is the UK implementation of ISO 18431-1:2005, incorporating corrigendum May 2009.

The UK participation in its preparation was entrusted by Technical Committee GME/21, Mechanical vibration and shock, to Subcommittee GME/21/2, Vibration and shock measuring instruments and testing equipment.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

Amendments/corrigenda issued since publication

Date	Comments
31 August 2009	Implementation of ISO corrigendum May 2009. Equation 9 in Subclause 7.2.3.3 replaced

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 January 2006
