

Mechanical vibration and shock — Characterization of the dynamic mechanical properties of visco- elastic materials

Part 4: Dynamic stiffness method

ICS 17.160

National foreword

This British Standard is the UK implementation of ISO 18437-4:2008.

The UK participation in its preparation was entrusted to Technical Committee GME/21, Mechanical vibration, shock and condition monitoring.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 30 November 2008
