Accelerated life test method of mixed metal oxide anodes for cathodic protection

Part 2: Application in soils and natural waters

National foreword

This British Standard is the UK implementation of ISO 19097-2:2018.

The UK participation in its preparation was entrusted to Technical Committee GEL/603, Cathodic protection.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
