

BSI Standards Publication

Condition monitoring and diagnostics of machines — Hydroelectric generating units

National foreword

This British Standard is the UK implementation of ISO 19283:2020.

The UK participation in its preparation was entrusted to Technical Committee GME/21/7, Mechanical vibration, shock and condition monitoring - Condition monitoring.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
