

BSI Standards Publication

**Space environment (natural and artificial) —
Plasma environments for generation of worst case
electrical potential differences for spacecraft**

National foreword

This British Standard is the UK implementation of ISO 19923:2017.

The UK participation in its preparation was entrusted to Technical Committee ACE/68, Space systems and operations.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
