

BSI Standards Publication

Industrial automation systems and integration — Service interface for testing applications

Part 5: Application program service interface

National foreword

This British Standard is the UK implementation of ISO 20242-5:2020.

The UK participation in its preparation was entrusted to Technical Committee AMT/5, Industrial architectures and integration frameworks.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
