

BSI Standards Publication

Road vehicles — In-vehicle Ethernet

Part 1: General information and definitions

National foreword

This British Standard is the UK implementation of [ISO 21111-1:2020](#).

The UK participation in its preparation was entrusted to Technical Committee AUE/16, Data Communication (Road Vehicles).

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
