

BSI Standards Publication

In vitro diagnostic medical devices — Multiplex molecular testing for nucleic acids

Part 1: Terminology and general requirements for nucleic acid quality evaluation

National foreword

This British Standard is the UK implementation of ISO 21474-1:2020.

The UK participation in its preparation was entrusted to Technical Committee CH/212, IVDs.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
