

BSI Standards Publication

Road vehicles — Crosstalk determination for multi-axis load cell

National foreword

This British Standard is the UK implementation of [ISO 21612:2021](#).

The UK participation in its preparation was entrusted to Technical Committee AUE/7, Automobile occupant restraint systems.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
