Robotics — Modularity for service robots

Part 1: General requirements

National foreword

This British Standard is the UK implementation of ISO 22166-1:2021.

The UK participation in its preparation was entrusted to Technical Committee AMT/10, Robotics.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
