

BSI Standards Publication

Automation systems and integration — Assessment on convergence of informatization and industrialization for industrial enterprises

Part 2: Maturity model and evaluation methodology

National foreword

This British Standard is the UK implementation of ISO 22549-2:2020.

The UK participation in its preparation was entrusted to Technical Committee AMT/4, Industrial data and manufacturing interfaces.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
