Carbonaceous materials used in the production of aluminium — Cathode — Cathode abrasion testing

National foreword

This British Standard is the UK implementation of [ISO 22731:2020](#).

The UK participation in its preparation was entrusted to Technical Committee CII/24, Raw materials for the aluminium industry.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
