

Hydraulic fluid power — Filter elements — Determination of resistance to flow fatigue using high viscosity fluid

ICS 23.100.60

National foreword

This British Standard is the UK implementation of ISO 23181:2007.

The UK participation in its preparation was entrusted by Technical Committee MCE/18, Fluid power systems and components, to Panel MCE/18/-/6, Contamination control.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 28 September 2007
