

BSI Standards Publication

**Road vehicles — Connectors for the electrical
connection of towing and towed vehicles —
Connectors for electronically monitored charging
systems with 12 V or 24 V nominal supply voltage**

National foreword

This British Standard is the UK implementation of ISO 25981:2020. It supersedes BS ISO 25981:2008, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee AUE/32, Electrical and electronic components and general system aspects (Road vehicles).

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
