Corrosion of metals and alloys — Method for metallographic examination of samples after exposure to high-temperature corrosive environments

National foreword

This British Standard is the UK implementation of ISO 26146:2012.

The UK participation in its preparation was entrusted to Technical Committee ISE/NFE/8, Corrosion of metals and alloys.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
