

BSI Standards Publication

**Anaesthetic and respiratory equipment —
User-applied labels for syringes containing
drugs used during anaesthesia —
Colours, design and performance**

National foreword

This British Standard is the UK implementation of ISO 26825:2020. It supersedes BS ISO 26825:2008, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CH/121/1, Breathing attachments and anaesthetic machines.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
